

**Providing Best Practice Services to
the community since 2005!**

Family Centered Services

Family centered services. We believe that the entire family, not just the child, should be included as our “consumer.” The entire family is affected by a child who has a developmental disability, and the family should be included in treatment and intervention. We emphasize parent and caregiver training, and participation of the family in all aspects of the intervention process

ABAEF/ BRIDGES is a Regional Center Vendor and Non-Public Agency (NPA)
