Coronavirus (COVID 19) Information for TERI Staff, Participants, and Families  
March 24, 2020

It is with deep regret that I must inform you it is necessary for us to discontinue providing speech and language therapy services through TERI Crimson for an indefinite period of time. Our last day of service will be March 31, 2020.

For the present, our therapists are working to complete exit reports that will provide information on patient progress to date. We will forward these to our vendors and contractors once they are completed.

I will continue to be available to any of you who have questions or need additional information. Many of you have become friends and valued colleagues over the years, and I want you to know how much I appreciate your endless support and partnership. Given the multiple choices you have for the delivery of speech and language services, I will be forever grateful that you placed your trust in TERI Crimson.

I wish you all the very best moving forward.
