

# DO YOU KNOW SOMEONE WITH AUTISM?

**Brain Development Imaging Labs**

Researchers at San Diego State University are taking a close look at organization of the cerebral cortex (gray matter) in people with autism spectrum disorders compared to those who don't have autism.

If you are between 18 and 40 years of age, you may be able to participate. Check us out!

This project is conducted by Dr. Ruth Carper, San Diego State University, Department of Psychology through a grant from the Simons Foundation for Autism Research Initiative.

What to expect:

- ✓ 2-4 visits including:
  - Cognitive testing
  - MRI Scan
- ✓ Get paid for participation

Where:

- ✓ SDSU, San Diego, CA

For more information, ask about

*The Gray Matter Study* at:

(619) 594-0176
